PeopleSoft Enterprise Release Notes for Global Components 8.9 Bundle #07

These release notes reflect application updates for PeopleSoft Enterprise Global Components since 8.9 Bundle #6 in October 2006.

PeopleSoft Enterprise Release Notes - 8.9 Bundle #07
For Global Components products

These release notes reflect application updates for Oracle's PeopleSoft Enterprise Global Components products since the Global Components 8.9 Bundle # 06 in October 2006.

Product	Functional Category	Incident ID	Reported Problem Description	Resolution Description
Global Components	EFT	1552190003	8.4 SP2: Payment message not showing up in BTL91.	The EFT File Layout BTL91 was modified to include the Payment message entered on the voucher.
	Taxes	1546640002	Tax applicability change of one of the states from Sales Tax to vat.	The India Tax Determination program was modified to determine the Tax Authority for Value Added Tax - this change is applicable for VAT in India only.
	VAT	1575779002	Add lines 0040 and 0041 to French VAT return report CA3 (VAT0200).	The French VAT Return report was modified to comply with the new layout.
		1576457003	GL 8.4 SP2: VOD VAT is being double-counted on VAT2000.SQR.	The VAT Account Balance reconciliation report was modified to check for the correct VAT Accounting types.
	VAT Defaulting	1508880004	AP8.8SP1 Voucher Build Failing with Duplicate at LC_VATALGO DCLDTAP Step02.	The VAT Default Algorithm program was modified to resolve an error message in Voucher Build process.
		1562365004	Voucher Build not populating VAT Declaration Date when VAT Declaration Point is invoice.	The VAT Default Algorithm program was modified to resolve an error message in Voucher Build process.
		1575087004	Contract Invoices fail BIPVAT000 due to missing vat defaults.	The VAT Default Algorithm program was modified to correctly populate VAT Defaults for VAT transactions processed through the Contract/Billing interface.

PeopleSoft Enterprise Release Notes - 8.9 Bundle #07
For Global Components products

These release notes reflect application updates for Oracle's PeopleSoft Enterprise Global Components products since the Global Components 8.9 Bundle # 06 in October 2006.

Product	Functional Category	Incident ID	Reported Problem Description	Resolution Description
Global Components	VAT Defaulting	1579415003	PO: The VAT Use Type and VAT Code are not defaulting to the Req and PO from the new EFFDT (effective dated) row in the Purchasing Processing Options - VAT Defaults Setup page.	The VAT Default program was modified to correctly populate the effective date for the VAT defaults setup in the system.
